Freebie Notes 3.41 Download

- Track the things you need to do and the tasks you need to perform - Simple and intuitive user interface - Colorful application look and feel - Set notes and alarms to open your programs or access your favorite websites - Adjust the size, position and transparency of the notes and alarms - Notes and alarms can be turned off if needed - Notes can be shared via Facebook or Twitter - Notes and alarms can be configured for recurrence - Notes can also be set to start programs or open websites - Set the notes and alarms to autorun How do you find out all the files on your hard drive? Can you search for them on the Web? When you're running Windows, you can do all of these things, but there are other ways to go about it as well. The Smart Folder is a free program from Allsoft that allows you to accomplish all the tasks you need to do. The program has a clean user interface that should be quite easy to figure out thanks to its simple layout. The Smart Folder will display all the files you have on your hard drive. They are arranged in a searchable list, making it easy to find and choose the file you need to open or change. You can set the Smart Folder to launch a file if you have it opened in another program, or to launch a custom URL of your choosing. More useful features include the ability to arrange the files in different ways, create folders for a more organized arrangement, and schedule search and open actions. A file can be dragged and dropped right into the folder as well. Smart Folder Features: Drag and drop files into the windows Arrange the files in different ways Search for files Create custom folders Launch files from another application Open files with a custom URL Set the files to launch when you open them Directory Searcher Description: Directory Searcher is a utility for the Windows platform that allows you to locate and organize all the files on your hard drive. It features a unique "Explorer like" directory tree view display, similar to those found on the Windows OS and on many other operating systems. The program was designed to make it as easy as possible to browse through and locate all the files and folders on your PC or your network. Directory Searcher lets you search, filter, and sort files and folders by their type, name, extension, and contents, as well as by the date they were last modified or b7e8fdf5c8

What's New in the?

===== The program is a standalone utility that does not require any installed software. It can be used with any Windows version, both 32 and 64 bit. Freebie Notes is designed to help you manage your notes in a most simple and quick way. Innovative interface ===== The program offers a clean and intuitive interface. It uses basic color schemes, which should help you to differentiate notes from one another. An alarm (repeating or once-off) can be set to popup notes according to a schedule. Intuitive user guide ===== The program has a very informative user guide that will allow you to create your notes in a right way. The use of color and font, that you should try to set manually, will help you to separate notes. Cons: ===== What we like: ===== The program works flawlessly with the new Windows 8 operating system. It's easy to use. What we don't like: ===== What we don't like about Freebie Notes is that it does not support symbols in your notes. How to install and use Freebie Notes: ===== You need to download the executable file of the program. Save it to your computer, and run it. In the first window, you need to select between install and uninstall options. Freebie Notes Setup File Key Features: ===== 1. Create notes on your desktop. 2. Set alarms for repeated and single notes. 3. Use custom colors and fonts for each note. 4. Set notes to open URL sites or programs. 5. Record date and time for each note. 6. Create a recurring schedule. 7. Sort by priority. 8. View notes by title. 9. View notes by date. 10. Set alarms for individual notes. 11. Edit notes by date, title, and priority. 12. Start notes with an app or a URL. 13. Set notes to start at a certain time or date. 14. Create a note for birthdays and anniversaries. 15. Set individual notes to start on a recurring schedule. 16. Setup a scheduled alarm that will set notes for you. 17. Set alarms for notes that open at a certain date and time. 18. Use a template to start notes. 19. Use a custom colors scheme for notes. 20. Add notes from the clipboard.
